Recall of Batch Due to a Quality Defect

With reference to NMQAL report on failing samples No. NDL/B/DU/H18/2020 dated 6th March 2020, NMRA notifies the withdrawal from use of the following batch:

Product: Rub-in- Hand Disinfectant (STERIMED)

Manufacturer: Medicom, 60/1, Park Street, Colombo 02, Sri Lanka

Batch No: SM01A20

Date of Manufacture: 01/2020

Date of Expiry: 12/2021

Failure/Defect: 1) Presence of a dead cockroach inside one bottle
2) Pump bottles are not tamper-evident. Plastic wrapper seal is limited only to cap with squeezing tip

All those having stocks of the above batch in their possession are advised to withdraw the batch from use and keep such stocks in a demarcated and secured place until formally disposed of. Also take necessary steps to inform the consignment details of any other batches pertaining to above product in stock to Director, National Medicines Quality Assurance Laboratory, in order to facilitate further sampling

Dr. Kamal Jayasinghe
Chief Executive Officer
National Medicines Regulatory Authority
